

Pathway® Ultrasound Imaging System for Lumbopelvic Rehabilitation ~ Vision Beyond Your Fingertips

The Prometheus Group®, continues to be the leader in the Physical Therapy/Rehabilitation marketplace. The Pathway® Ultrasound Imaging System for Lumbopelvic Rehabilitation, launched in 2018, has had an overwhelming response. The company, which prides itself on providing exceptional products, outstanding customer service, and unparalleled technical support, is excited to announce a new training platform, “EchoGen Portal”. Users of the ultrasound imaging system are allowed 24/7 access to this portal which includes instructional videos, an extensive image library, Skype support, and technical support.

Visit us at CSM, booth #415 for in-booth ultrasound demonstrations with Ramona C. Horton PT, MPT. Stop by and experience for yourself this new vision beyond your fingertips.

The affordability, ease of use, and image quality of this system is going to revolutionize clinical practice by providing access to technology that was once limited to academic research.

- Ramona C. Horton PT, MPT
Collaborated with The Prometheus Group® on the design and development of the Pathway® Ultrasound Imaging System for Lumbopelvic Rehabilitation.
